

Home Screen ②

"Create Memory" modal ③

"MEMORY VIEW" modal ④

Maybe More to settings?

"DONE" button compresses and packs all the fields together for Memory Drop.

Gray shaded area is Map background. This is a modal popup from clicking "Create Memory" from previous screen.

Thumbnails of Image, Video selection etc. But we might switch to Native OS Library selector.

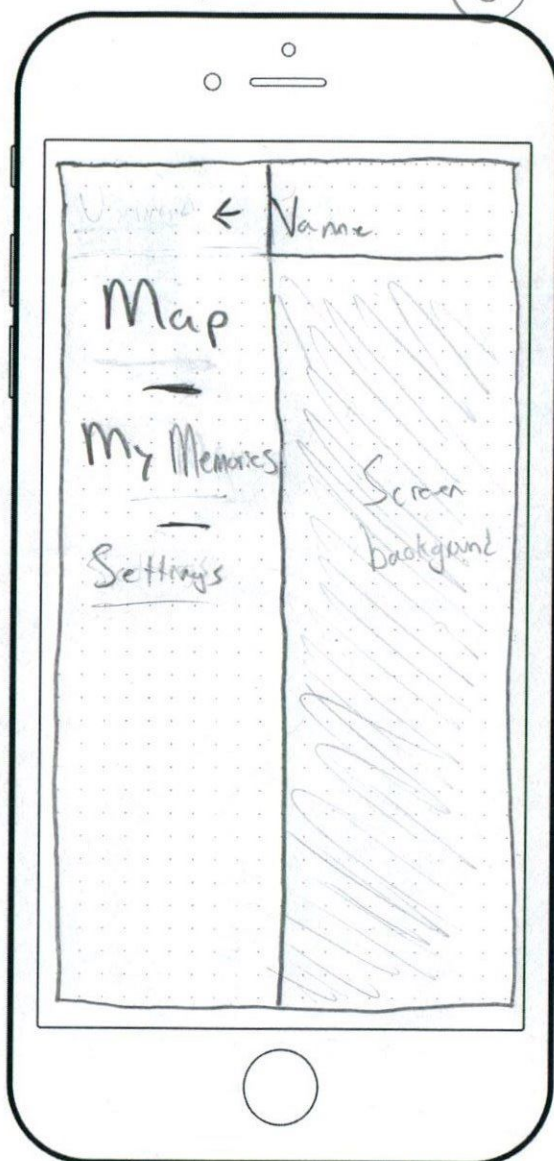

GRAY area is the MAP. The overlay appears when the user clicks on the memory point or even from their history.

"≡" - Selected
Nav Bar
